PERSONAL CHECKLIST

PERSONAL PLAN — BUYER 2

Step-by-step instructions for manual platform testing

1 *Your role and overall objective*

You are testing a second, independent buyer journey: registration, getting familiar with the platform, purchasing a different available whole property, placing competing bids, and booking a test drive that is rejected with a clear reason.

Do not switch to the seller role. Do not open debt properties. Do not use real passport or payment details.

2 *Test data*

- Test website URL: _____
- Email: _____
- Phone/WhatsApp: _____
- Interface language: _____
- Device and browser: _____

TEST CARD

4242 4242 4242 4242; expiry 12/34; CVC 123; Test User; postcode 28001.

3 Required preparation before your personal scenario

- [ ] Open the URL as a guest.
- [ ] Select the language and refresh the page: the language should remain selected.
- [ ] Click "Profile" → "Sign Up."
- [ ] Create a new account using the provided email address.
- [ ] Confirm the email address using the link or code in the email.
- [ ] If the email does not arrive, check "Spam" and request a resend once.
- [ ] Return to the website and make sure you are signed in.
- [ ] Enter your name, country, and phone/WhatsApp in your profile.
- [ ] Save, refresh the page, and check the data.
- [ ] From the home page, open "Buy Now," "Auction," and "Shares."
- [ ] From the menu, open Profile, Favorites, Comparison, Deposit/Wallet, History, Bookings, and Subscriptions.
- [ ] Check the registration notification in your account, email, and WhatsApp.

4 Choose a different property to buy

- [ ] Open "Marketplace" → "Buy Now."
- [ ] Choose any available property other than the first buyer's selection.
- [ ] Send the link to the coordinator and receive confirmation that the property is available.
- [ ] Check the gallery, price, address, description, features, documents, location, and seller.
- [ ] Add the property to Favorites.
- [ ] Open the "Smart Panel," calculate the property, and compare the input data with the listing.
- [ ] Return to the selected property.

5 Buy a whole property

- [ ] Click "Buy Now."
- [ ] Open the PDF and check the property, amount, and terms.
- [ ] Confirm your consent and signature.
- [ ] Start the first payment and cancel it.

- [ ] Check that the property has not been purchased and there is no charge.
- [ ] Repeat the process and pay the reservation once.
- [ ] Record the application ID, payment ID, and amount.
- [ ] Send the ID to the coordinator and wait for the transaction to be completed.
- [ ] In "History," check that there is one entry with the correct property, amount, and status.
- [ ] Check website, email, and WhatsApp notifications.

6 *Participate in the auction*

- [ ] Open "Marketplace" → "Auction."
- [ ] Choose the same active auction in which the first buyer is participating.
- [ ] Check the timer, current price, and minimum increment.
- [ ] Fund the deposit with the test card.
- [ ] Submit KYC and send the ID to the coordinator.
- [ ] Wait for KYC approval.
- [ ] Outbid the first buyer using the correct increment.
- [ ] Check the bid history and notifications.
- [ ] After the counterbid, check the outbid notification.
- [ ] You are not required to win or purchase through the auction.

7 *Book a test drive for rejection*

- [ ] Open the "Test Drive" section.
- [ ] Choose any property with available dates.
- [ ] Check the description, price, calendar, and terms.
- [ ] Select dates different from the first buyer's booking.
- [ ] Pay for the booking once and record the ID.
- [ ] Send the ID to the coordinator/seller with a request to reject the application and provide a clear reason.
- [ ] Check the "Rejected" status, dates, amount, and exact wording of the reason.
- [ ] Check website, email, and WhatsApp notifications.
- [ ] There should be one rejected application in "Bookings."

8 Final walkthrough and data check

- [ ] Open Profile, Favorites, Deposit, History, and Bookings.
- [ ] Make sure the purchase, payments, bids, and booking are each displayed once.
- [ ] Refresh the page twice and check again that there are no duplicates.
- [ ] Do not click "Become a Seller."

9 What to send to the coordinator

- IDs for the account, purchase, payment, deposit, KYC, bids, and booking.
- Screenshots of the email confirmation, listing, canceled payment, and final purchase.
- Screenshots of the bids, rejected booking, and reason.
- Notification results: account / email / WhatsApp.
- Errors: step / expected / actual / time / URL / screenshot.

The scenario is complete if a different whole property was purchased once, competing bids work after KYC, the test drive is rejected with a visible reason, and the data is not duplicated.
